MOBILE VETERINARY UNIT IN ODISHA UNDER RKVY & STATE PLAN

Background:

In order to ensure effective veterinary service delivery in remote areas, the Department has introduced Mobile Veterinary Units in 261 blocks of the State under RKVY funding & 53 MVUs under State Plan. This scheme has registered a huge success due to the overwhelming response of the farming community in the remotest part of the State.

Aim:

The aim of the programme is to establish “**Mobile Veterinary Unit**” to strengthen the service delivery mechanism so as to ensure better accessibility of services provided by the department in the field and there by improved productivity at the farmer’s farm.

Objectives:

- ❖ To examine the general health condition and to treat the livestock
- ❖ To provide “On the Spot” free diagnostic service to ascertain the disease.
- ❖ To detect the common diseases prevalent in the area.
- ❖ To provide doorstep veterinary service (Breeding, Curative).
- ❖ To educate people to adopt appropriate modern technology for improving the productivity.
- ❖ To make disease surveillance and monitoring of livestock and poultry diseases.
- ❖ To control and contain disease outbreak.
- ❖ To popularize the departmental schemes
- ❖ To create awareness on livestock preventive health care and other department services available.

Composition of MVU Team:

Each M.V.U shall consist of the following personnel.

Position	Number	Qualification	Remarks
Veterinary Officer	1	B.V.Sc. & AH	Retired Vets/Fresh veterinary Graduates will be engaged. In case of non availability, local Veterinary Doctors will manage.
Livestock Assistant	1	Basic Livestock Inspector training at LITCs	Retired LIs/VTs/SVAS will be engaged.
Attendant	1	8 th Pass	Will be engaged on daily wage basis through service provider

Proposed Operational Plan – Monthly Work Plan:

Activities	Days	Remarks
Camps at village level	20 (20 camps per month)	The monthly programme schedule will be prepared as per the local need in consultation with Block H.Q VAS
Monthly report and monthly meeting	2 days	At district level
Weekly Holidays	2 X4 = 8 days	Weekly 2 days off
Deployed for any emergencies/outbreaks		As and when required in the same block.

Outcome:

The proposal will enhance rural income and reduce poverty at Community level through:

Reduction of mortality of livestock and birds through proper treatment

Improvement in productivity due to better health of livestock

Additional individual employment opportunities for the farming families

Output:

240 camps will be organized per annum in a block and approximately, 100 animals (50 large, 50 small animals and 50 birds) will be treated per camp. All total, 24000 animals in a block will be treated covering 3,000 SC, 1000 ST and 10,000 other livestock holders. This will reduce the mortality of animals and enhance the total production in the area. It is expected to make 20 doorstep artificial inseminations of cattle per month by each unit, totaling to 200 artificial inseminations per block per annum. This will genetically upgrade the local cattle for enhancing the productivity.

Status Report Of Mobile Veterinary Units (From April-2013 to February -2014)

NAME OF SCHEME	NO OF MVU IN OPERATIONAL	YEAR OF STARTING	NO OF VAS ENGAGED	NO OF LI ENGAGED	NO OF ATTENDANT ENGEDED
